Hey Linda,

Dan and I just spoke about this. We did move the coax cable to the -013 from the -011 kit, but I'm not sure about Change number revisions.

To be quite honest I don't even know what Change numbers do for me!

Best Regards,

Kevin Barton

HELLO,

I received the ECN for the D130-787 traffic adv. System, and was just checking on something....

The coax cable is now in the -013, instead of the -011, is this correct? Is this why the -013 is going up a change number?

Thank You,

Linda Lacelle
